UN High Level Meeting on HIV/AIDS 8-10 June

Around the UN High Level Meeting on HIV/AIDS 8-10 June, New York will be filled with member states, their delegations and a mobilised civil society. The ongoing negotiations however have raised concerns about the outcome declaration becoming weaker than the previous declarations in 2001 and 2006. In particular, civil society calls for time bound targets and AAI together with the Accountability Forum promotes a strong framework for actionable accountability. Read the framework suggestion here or contact Project Manager Lisa Grafström for more information at lisa[a]aidsaccountability.org

Washington D.C. June 13-17: AAI's Executive Director Rodrigo Garay visits the annual conference hosted by Global Health Council. He will present a session entitled: "Towards Universal Access to HIV/AIDS prevention, treatment and care: increasing accountability through social entrepreneurship in times of crisis".
